

CITY OF ST. PETERSBURG

March 14, 1994

Ms. Anita Knight  
3016 23rd Street North  
St. Petersburg, Fl 33713

Dear Ms. Knight,

In reference to your call of 3/11/94 concerning the City of St. Petersburg's fluosilicic acid source, I am pleased to furnish you with the following information:

St. Petersburg has a contract with Lucier Chemical Industries, Limited (LCI), to furnish the water plant fluosilicic acid. Their phone number is (904) 241-1200. Their representative is Jack Hamman.

At this time, LCI Limited purchases its fluosilicic acid from Cargill Fertilizer, Inc., 8813 U.S. Hwy 41 South. Mulberry, Fl, phone 677-9111.

These two companies should be able to answer any questions you have concerning the manufacture of fluosilicic acid.

Sincerely,

Sara Johnson, Chemist  
Cosme Water Treatment Plant  
City of St. Petersburg
